

Andrii Marushchak

Ukraine, Kyiv city

26 years old

Graduated the Master program of philosophy at the National University of Kyiv-Mohyla Academy in 2012.

Before I worked in advertising company; as a shop-assistant; as freelance researcher; as a journalist at a website; as a translator of the tv-series; as an interpreter and operations assistant in the international election observing mission; as a tour guide at the NSC Olimpiyskyi stadium in Kyiv.

I enjoy travelling by bicycle with my friends. All I need is a tent, sleeping bag and mountains ahead. In that way I travelled almost around whole Ukraine and some European countries.

My big passion is football, I support my native city team of Dynamo Kyiv.

I also enjoy hiking, music, nature, reading, running, working out, geography and photography. I support health way of life, so I neither drink alcohol nor smoke.

I like to discover new landscapes, traditions and cultures. Lithuania seems to be perfect for spending time exploring and experiencing something new.

*So, respect the Mother Nature, keep your mind clear and your body strong!*
