

RUBÉN ARRANZ MARINERO

My name is Ruben Arranz, I'm 24 years and I come from Spain. I live in a small village in Segovia, called Vallelado (Cold Valley),

Before coming to Lithuania I was working as a carpenter and I'm pursuing to finish my university studies in Tourism.

During the last 5 years I've been involved in free times activities in my village. For instance, in one year I've worked with disabled people in Valladolid helping them in their daily activities. Also I'm involved in

social, cultural and sportive activities back home.

I'm dancing in the traditional dance group and playing in the fronton (basque ball) team at national level. Before this I played in the football team at regional level.

I consider myself as a hard working, organized and positive person. I love travelling and meeting new people and cultures. I'm sociable, flexible and easy-going, and I'm able to adapt to people.

I enjoy travelling with my friends and go to concerts. My favourite football and basqueball teams are Real Madrid.

My motivations to go as a volunteer and take part in the European Volunteering Service is the wish to learn about Lithuanian culture and traditions. Lithuania, but especially Plateliai is a very very beautiful place to live in.
